EXECUTIVE PANEL SERIES

*High-definition decorative panel
“make sure you buy the original.”
Don't settle for inferior imitations.*

When we introduced these panels to the market 10 years ago, the EXECUTIVE PANEL series sent a shockwave in the steel door industry, and they have become more popular every year since. These “high definition” panels, inspired by the moldings used on traditional wooden doors, can be used with decorative glass panels, in any number of combinations. Our series (111) sidelight joined to an EXECUTIVE DOOR can add style to any house.

*Decorative panel, urethane insulation,
many sizes available.*
